PROFESSIONAL SUMMARY

BSIT student under the Mobile and Web Application specialization, seeking an IT internship beginning October 2026. Hands-on experience developing a mobile application, contributing to web application functionality, analyzing system requirements and workflows, and performing software testing. Strong in application logic, functional and regression testing, validation, bug identification, and translating requirements into expected system behavior. Interested in Software QA, Mobile Development, Web Development, and System Analysis roles. Available for a 400-hour internship per semester, with a target of 800 total internship hours.

EDUCATION

National University - Mall of Asia BSIT - Mobile and Web Application Dean's Lister Expected Graduation: 2027	2023 - Present
Santa Maria National High School Senior High School - ABM Strand (Accountancy, Business and Management)	2023

PROJECT EXPERIENCE

LILIORA - Multi-Branch Dormitory Management System (Capstone) Mobile Developer • System Analyst • QA Tester https://www.lilycrest.space/ - Developed the project's mobile application using React Native (Expo) and implemented features integrated with backend services. - Contributed to selected web application features and analyzed requirements, workflows, validation rules, and expected system behavior. - Performed manual, functional, regression, and workflow testing across the mobile application and selected web features. - Identified and documented defects, validation errors, navigation issues, UI inconsistencies, and edge cases, then reproduced issues and verified fixes. - Tested end-to-end workflows including user access, reservations, tenant management, billing and payments, maintenance requests, announcements, and account management. Tech Stack: React Native (Expo), React, Node.js, MongoDB, Firebase	2025 - Present
General Clinic Management System Developer • QA Tester - Web & Mobile - Developed and tested clinic management features supporting Patient, Doctor, Staff, and Admin workflows. - Implemented and validated workflows for appointments, consultations and medical records, walk-in queues, prescriptions and inventory, laboratory processes, medical certificates, notifications, reports, and audit logs. - Performed functional, workflow, validation, and responsive testing across web and mobile interfaces. - Identified and verified fixes for functional issues, validation errors, navigation problems, and responsive-layout inconsistencies. Tech Stack: React, Vite, Express, Firebase, MongoDB	Academic Project
SkinFluence - Android Mobile Application Android Developer - Developed a native Android application in Java with custom splash, start, login, sign-up, and homepage interfaces. - Implemented multi-screen Android activities, including splash-screen navigation and edge-to-edge screen handling. - Built custom mobile layouts and application resources using Android XML, AndroidX, Material Components, and ConstraintLayout. - Configured and built the Android project into a runnable application package for testing. Tech Stack: Java, Android SDK, XML, AndroidX, Material Components	Academic Project
Point of Sale (POS) System Developer • Software Tester - Developed inventory and transaction functionality for a desktop-based POS application. - Tested authentication, inventory updates, sales transactions, stock computations, and report accuracy through manual functional testing. Tech Stack: Java, SQL	First-Year Academic Project

TECHNICAL SKILLS

Development: JavaScript, React Native (Expo), React, Vite, Node.js, HTML, CSS
Testing & QA: Manual Testing, Functional Testing, Regression Testing, UI Testing, Test Case Execution, Bug Reporting, Requirement Validation, Workflow Validation
Databases: MongoDB, Firebase, MySQL, SQL
Tools & Version Control: Git, GitHub, Visual Studio Code, MySQL Workbench
Concepts: SDLC, Agile, System Analysis, Requirements Analysis, Application Logic, Workflow Analysis, Documentation
Additional Exposure: Python, Java, Flask, Flutter

CORE STRENGTHS

Analytical Thinking • Problem Solving • Attention to Detail • Requirements Analysis • Documentation • Communication • Teamwork • Adaptability • Continuous Learning
